

FieldCommander® FC3402: Intelligent Industrial I/O Server with MMS+camera

Highlights

The FC3402 is a FC3400 with integrated support for acquiring and sending photo's.

The FC3402 not only supports sending and receiving SMS(test)-messages but also supports support MMS-message (multi media) which enables you to send pictures as well.

A digital camera is included in the FC3402 package; supporting taking pictures. The pictures taken, can be transferred with the MMS-protocol to mobile phone users.

Applications

- * M2M application
- * security application
- * system visualization.

Reliable, flexible and easy to use

Based on the FieldCommander technology creating a new product With its four high-speed RS-232 and RS-485 ports, it can control instruments and acquire data from several field buses simultaneously. When you need more inputs or when the networks are physically separated, multiple FieldCommander devices can be linked together.

Order info

FC3402
FCPowerDIN
FCPowerDesk

FC3402; FieldCommander Advanced +GSM/Cam
Powersupply for DIN-rail
Powersupply for Desktop

Software

- Based on the powerful Advanced FieldCommander software

Software accessoires incl.

- SMS software driver
- MMS software driver
- FC-Cam software driver

Hardware

- Based on the FieldCommander HW1-platform. Please check the HWP1 datasheet for more detailed info.

Hardware accessoires incl.

- FC-GSM1 modem
- FC-CAM1 Camera

Software/hardware limits

- max. 4 convertercomponents
- max. 4 ports

Options.

- Powersupply

from Device to Enterprise
