

MODBUS ASC converter: software option for FieldCommander® devices

Highlights

Modbus is a popular protocol that is being used in many markets like test & measurement, building automation or in industrial automation.

This Modbus software option is a protocol converter, enabling the FieldCommander software to link to Modbus devices.

Applications: Communication

- Extend your Modbus-device with the FieldCommander communications options, like email; FTP; SMS or remote control.

Visualization

- Using FieldCommander and this software option it is now easy to link your Modbus device and visualize the system on a webpage.

Integration

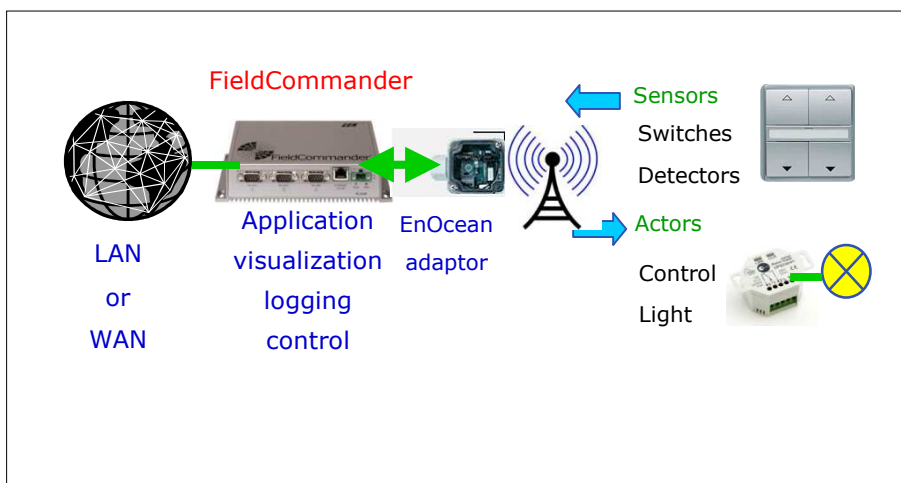

- Your Modbus device can now be integrated with other systems.

Monitoring, alerting and reporting

- Monitor Modbus devices and extend them with alerting and reporting possibilities using the FieldCommander technology.

FieldCommander script

- script example included
- support for many dedicated FieldCommander functions included.

System requirements: Communication

- at least 1 free communication port is required

FieldCommander software

- at least 1 free convertercomponent in your FieldCommander sw is required (depending on application more free slots can be required).

Important !

Options must be ordered with a FieldCommander system.
Option software will be installed on 1 FieldCommander system.
Several options can be installed on 1 FieldCommander system.
For max. number of options please check your system spec.

Modbus is a registered trademark of AEG Schneider Corp.

Order info

FCopt010

Modbus ASC protocol converter;
Software option for FieldCommander devices.

Extra/New

- Communicate with Modbus devices
- Support extra functionality to your Modbus devices
- Support linking systems

Enable integration

- Link Modbus devices to all other kind of devices FieldCommander is supporting. FieldCommander can be your gateway to other systems

Support details

- support Modbus Mastermode for sensors and actors
- supports Modbus bidirectional.
- 1 license for 1 FieldCommander; max. 4 ModBus converters; no license restrictions for Modbus devices.

Content

- Protocol converter software
- Driver software
