

EnOcean-RF: FieldCommander® option

EnOcean is a RF protocol for the battery-less switches and sensors based on the EnOcean (868MHz) technology.

This software option is a protocol converter, enabling the FieldCommander software to link(receive) from EnOcean devices. Other companies created compatible devices like Ratio (Omnio), EasyClick(Peha), gesis RC(Wieland) and EasySens (Thermokon).

Applications

Communication

- your EnOcean-sensors can now be extended with the FieldCommander communications options, like email; FTP; SMS or even MMS.

Visualization

- Using FieldCommander and this software option it is now easy to link your EnOcean devices and visualize the system on a webpage, even remote.

Integration

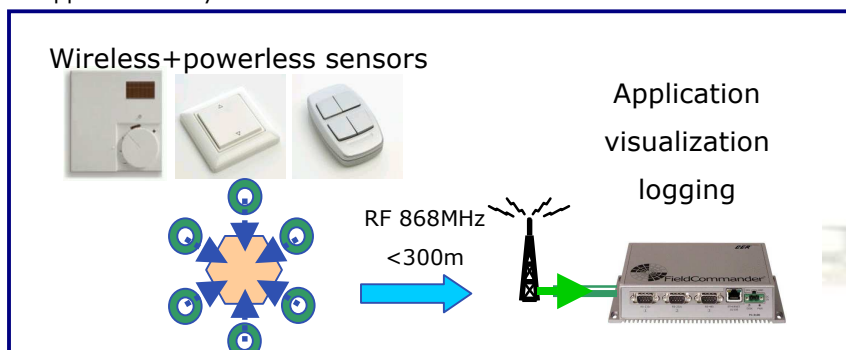

- your EnOcean system can now be integrated with other systems.

Monitoring, alerting and reporting

- monitor EnOcean and extend EnOcean devices to alerting and reporting possibilities using the FieldCommander technology.

FieldCommander script

- script example included
- support for many dedicated FieldCommander functions included.

System requirements:

Communication

- at least 1 free RS485 communication port is required

FieldCommander software

- 1 free convertercomponent in your FieldCommander software is required .

Important !

Option must be ordered with a FieldCommander system.
Option software will be installed on 1 FieldCommander system.
Several options can be installed on 1 FieldCommander system.
For max. number of options, please check your system spec.

EnOcean is a registered trademark of EnOcean GmbH.

EasyClick is a trademark of Niko nv and Peha.

Ratio is a registerd trademark of Omnio AG

Gesis RC is a trademark of Wieland Electric GmbH

EasySens is a registered trademark of Thermokon SensorTechnik GmbH

Order info

FCopt150

EnOcean protocol converter; FieldCommander Option

Extra/New

- Communicate with EnOcean or Easyclick, Ratio or EasySens devices
- Support extra functionality to your EnOcean devices
- Support linking systems

Enable integration

- Link EnOcean sensors to all other kind of devices the FieldCommander is supporting. FieldCommander can be your gateway to other systems

Support details

- support EnOcean sensors
- supports EnOcean unidirectional
- 1 license for 1 FieldCommander; no license restrictions for EnOcean devices.

Content

- Protocol converter software
- Driver software
- EnOcean adapter(receiver) included
- No Power supply included
