

Z-Wave converter: software option for FieldCommander® devices

Highlights

Z-Wave is a popular wireless protocol that is being used in home & building automation.

The Z-Wave software option is a protocol converter, enabling the FieldCommander software to link to Z-Wave devices.

Applications: Communication

- Extend your ZWave-device with the FieldCommander communications options, like email; FTP; SMS or remote control.

Visualization

- Using FieldCommander and this software option it is now easy to link your ZWave device and visualize the system on a webpage.

Integration

- Your ZWave device can now be integrated with other systems.

Monitoring, alerting and reporting

- Monitor ZWave devices and extend them with alerting and reporting possibilities using the FieldCommander technology.

FieldCommander script

- script example included
- support for many dedicated FieldCommander functions included.

Extra/New

- Communicate with ZWave devices
- Support extra functionality to your ZWave devices
- Support linking systems

Enable integration

- Link ZWave devices to all other kind of devices FieldCommander is supporting. FieldCommander can be your gateway to other systems

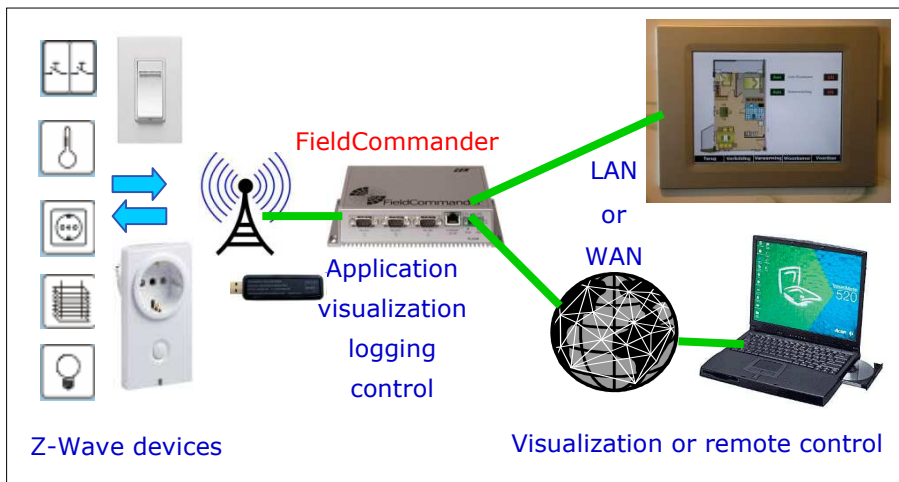

Support details

- support ZWave for sensors and actors
- Supports ZWave bidirectional
- 1 license for 1 FieldCommander; no license restrictions for Zwave devices.

Content

- Protocol converter software
- Driver software
- ZWave adapter(interfac)included.

System requirements: Communication

- no communication port on your FieldCommander device is required

FieldCommander software

- at least 1 free convertercomponent in your FieldCommander sw is required (depending on application more free slots can be required).

Important !

Options must be ordered with a FieldCommander system.
Option software will be installed on 1 FieldCommander system.
Several options can be installed on 1 FieldCommander system.
For max. number of options please check your system spec.

Z-Wave is a registered trademark of Sigma Designs / ZenSys Corp..
